

A Medstreaming™ Company

**BUILD. GROW. SUSTAIN.**  
**THE RIGHT PARTNER TO MOVE  
YOUR MEDICAL REGISTRY INTO  
THE FUTURE.**

## WHO IS M2S?

M2S serves as a committed partner to medical specialty societies by providing all the critical services necessary to launch and grow a registry network.

Our best in class PATHWAYS™ data collection and reporting platform is just the beginning. Society goals are realized through the full-service operational support and project management provided by a team of experts with over 20 years of experience.

M2S is not a vendor. M2S is your partner.

## MOVING YOUR REGISTRY INTO THE FUTURE

M2S has extensive experience guiding societies, medical device companies, pharma and health systems through the development of clinical registries, to support value based care and quality improvement initiatives for improved patient outcomes.

With changes in healthcare, the focus is increasingly on promoting best practices within the hospital. Physicians and administrators are consistently reviewing standards of care and quality measurements, and looking for ways to improve efficiency, as well as clinical outcomes.

Our team can take your ideas from concept to launch. With our true understanding of the registry design process, your project will be done to your specifications in a timely fashion.

M2S, with its parent company Medstreaming®, offers a variety of products and services to fit your budget, workflow and registry needs. Here are some of the offerings available to your society:

**REGISTRY DESIGN**  
**DATA MANAGEMENT**  
**EMR INTEGRATION**
